

## COAST ROAD TO GET \$50,000 CO. FUNDS

**MONEY APPROPRIATED FROM THE  
GENERAL FUND FOR REPAIRING  
ROAD FROM PESCADERO TO THE  
SANTA CRUZ COUNTY LINE.**

By unanimous vote of the San Mateo county board of supervisors a resolution was adopted Monday calling for the transfer of \$50,000 of the \$80,000 raised by a 23-cent tax included in the last levy from the general fund to the fifth road district fund, the same to be used in the repairing of the Pescadero to Santa Cruz county line road.

The balance of the amount of the tax, or \$30,000, will remain in the general fund, and will be put to other use, such as aiding the Social Service Commission and other items properly chargeable to the general fund.

When the resolution was adopted, Supervisor MacBain moved that County Surveyor George A. Kneese prepare plans and specifications for the road, the cost not to exceed \$50,000, and the motion was carried.

Following the disposal of this matter, which had drawn a large attendance from the Pescadero section and other parts of the county, Supervisor MacBain introduced a resolution in regard to the Dumbarton bridge project, inviting and requesting the San Francisco board of supervisors to appoint a committee of three to confer with a similar committee from San Mateo county relative to the proposition of constructing a bridge across the bay at or near Dumbarton, and to recommend and suggest the way and means by which the legal, financial and engineering problems connected with such construction may best be solved. This resolution was adopted, and a copy ordered sent to the San Francisco board of supervisors.

County traffic officers from the different districts presented their reports for the month of January, which were ordered filed.

Reports for January were received from the county clerk, sheriff, tax collector, license collector, county recorder, United States public health service, horticultural inspector, county farm and hospital, county veterinarian and a report from County Treasurer P. P. Chamberlain, showing a balance in the county treasury of \$1,285,885.97.

A petition was filed by Mrs. W. E. La Dieu et al. for the formation of a sanitary district south of Redwood City, to be known as the Washington Sanitary District. On motion of Supervisor Hickey, seconded by Supervisor Brown, a resolution was introduced calling for an election to be held on April 1st, at which the residents of the district will be given an opportunity to express their desires in the matter.

A petition filed by L. Goertz et al. for the establishment of a sanitary district to include portions of Menlo Park and the Fair Oaks district, also resulted in the introduction of a resolution by Supervisor MacBain calling for an election on the question to be held on March 7th.

A petition was presented by Isabel Vallejo et al. calling for the establishment of a sanitary district at Halfmoon Bay. A resolution introduced by Supervisor Francis provided for an election in this district.

Alvin S. Hatch et al., residents of Halfmoon Bay, petitioned the board for the appointment of a board of three fire commissioners for the Halfmoon Bay district, and following the adoption of a resolution introduced by Supervisor Francis establishing the board, A. F. Joseph, A. S. Hatch and Charles L. Morgan were appointed to serve as the first commissioners.

A certificate was filed by County Superintendent of Schools Roy W. Cloud, showing that a new union high school district to be formed at Pescadero had met with a favorable vote at the recent election.

County Purchasing Agent E. H.

## MEETING ON GREAT RECLAMATION SCHEME

**Speakers From S. F. and Towns on  
Peninsula to Explain Plan for  
Reclaiming 40,000 Acres.**

Next Thursday evening will see a public meeting at the South San Francisco city hall that may turn out to be one of the most important meetings ever held in San Mateo county. It is being arranged under the auspices of the local Chamber of Commerce, and is planned to give information to the public at large on the subject of the great reclamation scheme by which between 30,000 and 40,000 acres are to be reclaimed and made into home and industrial sites. This great tract is largely tide and swamp land stretching along the bay shore of San Mateo county from Hunter's Point to below Redwood City. The plan includes the dredging of a deep-water channel in the bay for shipping and the establishment of ports with wharves and docking facilities along many miles of shore line.

An enthusiastic meeting given up largely to a discussion of this subject was held at Redwood City last Saturday afternoon. Supervisors Welch and Coleman of San Francisco and many persons prominent in civic and industrial circles on the peninsula were present and spoke on the huge project. All were enthusiastically in favor of the plan and of getting it under way as soon as possible. All agreed that it was feasible and would be a tremendous factor in the future of the entire peninsula.

It is expected that City Engineer O'Shaughnessy of San Francisco, Supervisor Richard Welch and Haven A. Mason of the City Planning Commission will be in attendance to speak and to make clear any phases of the subject that are not understood by those in attendance.

## WOMAN'S CLUB EXCHANGES LOT FOR NEW CLUB HOUSE

There was a well-attended meeting of the Woman's Club February 2d at its rooms in Metropolitan Hall.

The exchange of the lot now owned by the Woman's Club near the high school for one on Grand avenue east of the Episcopal church was unanimously voted, and the corresponding secretary was instructed to write a letter of thanks to Mr. Chatham for the liberal reduction made from the original price of the new lot. A motion was carried to also express the club's appreciation to W. J. Martin, who it was felt must have presented the needs of the Woman's Club of South San Francisco to Mr. Chatham in a most convincing manner.

The reports of extensive "boot-legging" in our city then came up for discussion, and spirited remarks were heard as to the responsibility of our clubwomen to not merely investigate conditions, but to do follow-up work until the city shall be free of these foes to its present and future welfare.

Mrs. L. R. Hursh of San Francisco spoke on the value of keeping systematic account of one's expenditures and advised that children be taught to keep a budget. She also made a plea that we use our time as well as our money wisely. In conclusion she said that the "C" had been changed into an "S" in the word Charity, and that "Sharity" (shar-it-y) makes us all partners of life's possessions.

Mrs. Irene Edmonds of San Francisco sang two solos.

## How U. S. Aided Road Work.

In the last five and one-half years the government has assisted in the building of 28,774 miles of highways at a cost of \$500,000,000, the Bureau of Public Roads of the Department of Agriculture announced as a result of a survey of the country. This includes 12,907 miles of completed roads and 15,334 miles under construction and 70 per cent complete. In the completed work Texas leads with 1116 miles, Minnesota is second with 1066 miles, completed at a cost of more than \$10,000,000; Illinois has 723 miles, total cost, \$24,608,958; government's part, \$11,221,464. Nebraska had 683 miles, total cost, \$3,637,767; government's part, \$1,735,763.

## TWO "SHORT CHANGE" ARTISTS OPERATE HERE

**Arrested Later in City Will Appear  
Before Local City Judge.**

Two short change artists, a man and a woman, operated in South San Francisco recently, and as a result W. C. Schneider's store lost \$5. The two were afterward arrested in San Francisco, and gave the names of Henry and Dorothy Villiness. They will appear in the city recorder's court here Friday afternoon.

The two tried their game at other stores but were unsuccessful. Their method was to make a small purchase and offer a large bill in payment. While change was being made the confederate would present another smaller bill and in the ensuing conversation attempt to confuse the clerk, then make a quick exit \$5 to the good. At Schneider's, Joe Kent, manager, discovered the trick as the two were leaving the store. Before he could stop them they drove rapidly away, but Kent telephoned ahead and they were picked up in San Francisco.

## MEETING TO ORGANIZE P. T. ASSOCIATION IS PLANNED

The meeting for the organization of a Parent-Teacher Association in South San Francisco will be held at the high school auditorium Thursday afternoon of next week. All interested in the welfare of the school children are invited to attend.

## ASKS STATE PROBE OF HARBOR COMMISSION

**Peninsula Bureau Believes Commission  
Shows Undue Influence.**

A state probe of the affairs of the State Board of Harbor Commissioners has been requested of Governor William D. Stephens by the Peninsula Bureau of Chambers of Commerce and Civic Associations, as a result of the meeting held in the court house at Redwood City Saturday. The request was embodied in a resolution introduced by the Menlo Park Chamber of Commerce, in which the action of the State Board of Harbor Commissioners in instituting proceedings before the Railroad Commission to force the Southern Pacific Company to establish a drawbridge at Seventh and Channel streets in San Francisco was condemned.

Following the bureau's emphatic condemnation of Commissioner Fred Moody, the Moody Estate Company and the State Board of Harbor Commissioners, President J. H. Sullivan of the Menlo Park Chamber of Commerce announced that his organization would circulate a petition requesting that Governor Stephens remove Harbor Commissioner Fred Moody from office, based upon what members of the Menlo Park Chamber view as "malfeasance of office."

## ATTEND SCIOT PARTY AT CENTURY THEATER

A number of local members of San Mateo Pyramid of Sciots attended a theater party at the Century Tuesday evening to see a performance of Kolb and Dill. Those in the party were Mr. and Mrs. E. P. Kauffmann, Mr. and Mrs. C. W. King, Mr. and Mrs. J. W. Coleberd, Mr. and Mrs. A. J. Cadero, and Mr. and Mrs. W. White. Many were also present from other points in the county.

## J. W. COLEBERD OFFICIAL OF COUNTY BAR ASSOCIATION

J. W. Coleberd, city attorney of South San Francisco and the most prominent lawyer in town, was elected vice-president of the San Mateo county bar association at its annual meeting held at Redwood City last Saturday. Charles N. Kirkbride of San Mateo was elected president, with John S. Machado of Redwood City secretary.

## MERCHANTS TO HOLD ANOTHER WHIST PARTY

At Wednesday evening's meeting of the local Merchants' Association it was decided to hold another whist party in the near future, this time in conjunction with the Woman's Club. A more detailed announcement will be made later. Street widening, electric lighting and other matters for the welfare of the city were discussed.

## TWO ROBBERIES OCCUR IN WEEK

**Mager and Blank Homes in This City  
Broken Into by Thieves.**

Two robberies have occurred in town within the last week. Certain points of similarity about the cases indicate they may have been the work of the same persons.

Friday of last week both Mr. and Mrs. John F. Mager were absent from their home on Miller avenue, and on their return found that the house had been entered and ransacked. A fur rug, an electric percolator, an electric iron, an electric toaster, a watch, a pillow or two and some preserved fruit were taken. A peculiar feature is that valuable silverware was left. The shades in the house had been drawn down, and it seems probable that the thieves were frightened away before completing their work.

Some time Sunday afternoon the home of Mr. and Mrs. Paul Blank on Commercial avenue was entered and several articles of household use taken. Among them were a vacuum cleaner and pillow cases.

The thieves also took a number of valuable papers belonging to Mr. Blank. Tuesday, marks on the basement door of the Blank house gave evidence that another but unsuccessful attempt had been made to enter the Blank house.

The manner in which the thieves worked would indicate that they are amateurs.

## SAN BRUNO OFFICER SHOOTS BURGLAR

**City Marshal Detects Man in Act of  
Entering Lomita Park Home.**

Police officers and hospital employees of San Mateo and neighboring counties are on the lookout for a man suffering from a bullet wound as a result of a brush between a would-be burglar and City Marshal Arthur Meehan of San Bruno last Saturday night. A shot from Meehan's pistol is believed to have taken effect in the man's body, but with the aid of a confederate he made good his escape.

The shooting occurred at the home of Walter Hurry at Lomita Park. Because many Lomita residents were to attend a P. T. Association whist party that night, Meehan decided to patrol the town to see if he could run across any night marauders, many robberies having been reported from that region lately. With Meehan was a posse, including Carl Lewis, Harry Love, Frank Steward and Lewis Lombardi. At the Hurry home Meehan saw two men break a window with the evident intention of effecting an entrance. One was upon the window sill when he spied the officer, and drew a pistol. But Meehan was too quick and fired, the man crumpling up and falling at the shot. Meehan rushed to a gate in a hedge that separated him from the burglars, but by the time he had made an entrance the wounded man and his partner had disappeared. Meehan's posse gathered at the shot, and a trail of blood the man had left was followed for about half a mile, then lost.

Police officers and hospitals in all neighboring towns were immediately notified, and it is believed the man will be taken.

## JOSHUA MAULE TO OPEN DRUG STORE IN SAN BRUNO

Joshua Maule, a young man who was raised in this city and attended high school here for three years, is planning to open a drug store in San Bruno in the near future. The store will be known as Maule's Pharmacy, and Mr. Maule expects to have it open for business by March 1st.

Mr. Maule is the son of Mr. and Mrs. J. B. Maule of this city. After graduating from the local high school he took a course at Sacred Heart College in San Francisco and later graduated from the department of pharmacy of the College of Physicians. A half he has been employed as assistant manager of Nelson's Pharmacy in the city.

## YEOMEN PLAN WHIST PARTY.

The local lodge of American Yeomen is planning a whist party for the evening of February 15th. Valuable prizes will be given the holders of the highest scores.

## PROPERTY OWNERS PROTEST PAVING

**Protest to Be Given Consideration at  
Next Meeting; City Contributes to  
Legion Colors Fund.**

Monday evening's meeting of the board of city trustees found only three officials in their chairs, Chairman Holston and Trustee Cunningham being both confined to their homes by illness. Trustee L. G. Hardy presided as chairman.

A protest signed by a long list of property owners affected was presented against the paving at this time of the alleys in town as outlined in Resolution of Intention No. 41, passed some time ago. Notice inviting sealed proposals for the doing of this work are to be opened next Tuesday evening, and the reading and consideration of the petition was postponed till that time.

A petition from H. McCaffery for a permit to erect three garages in the rear of his apartment house at 315 Miller avenue was denied, as the specifications did not call for fireproof buildings according to the designation in the fire ordinance of what is considered fireproof buildings.

A communication from Bernard McCaffery Post of the American Legion called attention to the drive the post is conducting to purchase a stand of colors, and the board voted to contribute \$25 to the fund.

A permit for a dance the evening of February 11th was given to the fire department, and a permit for the Fraternal Hall Association to hold a dance the evening of February 21st.

A letter from Poundmaster Louis Ringe conveyed the information that Frank Rogers had resigned as assistant poundmaster and Clyde Emerson had been appointed to the vacancy. The board confirmed the appointment.

City Clerk McSweeney stated that J. B. Lawrence, superintendent of the Spring Valley Water Company in this county, had informed him that the company would take up the lowering of its water mains near Peck's Lots in this city in the near future, probably in March.

Reports were received from the following city officials: Marshal, recorder, electrician, nurse, and clerk. Because of the absence of Trustees Holston and Cunningham, both members of the finance committee, the current bills against the city were laid over till the next meeting night which, because of Monday being a holiday, will be Tuesday evening.

## DISTANCE INCREASES AS YEARS PASS; HOW COME?

Last week it was reported that an auto mail truck had been put into service between the local postoffice and the S. P. depot because of the increase of business at the South San Francisco office. There is, however, another reason back of putting the truck into service here, this being the final triumph of the railroad company in a controversy between the railroad and postal department that has been brought up from time to time for several years. Heretofore the postoffice has had the better of the argument each time.

It's all like this: Under the railroad's mail hauling contract with the government, if the postoffice is more than eighty rods from the depot the postoffice would deliver the mail at the depot; if eighty rods or less, the railroad would pick the mail up. The distance between the local office and the S. P. depot has been the subject of dispute before, and during the regime of E. E. Cunningham as postmaster the distance was measured from the center of the postoffice door to the center of the depot door and found to be a trifle less than eighty rods. Again the S. P. brought the matter up recently, and again the distance was measured, and lo! the S. P. found it over eighty rods.

Now the question is: Did the railroad use a short measuring line this time or had the distance actually increased? It is suggested that possibly the growth of the town has caused the thoroughfare between the two buildings to stretch a little.

If you are a good citizen the public may never find it out, but if you are a bad citizen it will.

## FOUR YOUTHS IN NET FOR ROBBERY

**ONE MAN ARRESTED IS THOUGHT  
TO BE THE LEADER OF A GANG  
OPERATING IN BAY CITIES FOR  
THE PAST FEW MONTHS.**

With the arrest and commitment to jail this week of four youths ranging in age from 19 to 26 years, San Mateo county officers and police heads of San Francisco believe a blow has been struck toward the elimination of a gang of youthful crooks who have been carrying on operations in northern San Mateo county and throughout the bay cities for some time past. In the person of August Avelino the authorities believe they have apprehended the leader of the gang, for it is known that he directed two cases where arrests have been made on charges of larceny and highway robbery.

Constable Landini has been working on the two cases on which these arrests were made since the report of the theft of money and valuables from the Christian ranch house near Colma the latter part of January, and another offense was laid to the operations of the same gang when John Podesta was robbed of money and jewelry to the amount of about \$800 the night of January 26th when he returned from San Francisco in a taxicab, and upon alighting at his home in Colma both he and the driver of the machine were held at the point of guns by three men who robbed them, while a fourth waited in a car near by. It was due to this checking up and process of elimination by Landini that the men were arrested in San Francisco during the last week and brought to Daly City for a thorough grilling before they were committed to the county jail at Redwood City to await trial. Varying statements were made by different members of the gang under the grilling at the Daly City police station, but one of the youths made a statement which bears out facts which are already in Landini's possession and which cleared up matters for placing specific charges against the four youths in the ranch theft and the robbery of Podesta.

August Avelino and Howard Jenkins were committed on the charge of highway robbery and bail fixed at \$2000 and \$1000, respectively, while George Rose and Willie Avelino were held on a larceny charge for the theft of money and valuables from the Christian ranch.

Landini states that he will make at least two more arrests of members of the gang for participation in the Podesta hold-up as a result of information in his hands. Though some who are known to be intimates of the youths now under arrest and who are thought to be members of the gang operating under the direction of August Avelino may escape implication in the cases in hand, it is thought possible that they may see the error of their ways and turn back to the straight and narrow without the necessity of being caught with the goods and sent over the road that tends to make hardened crooks of thoughtless youths who can be led by olden men.

## HAVE YOU RECEIVED YOUR TICKETS YET?

Many persons have secured tickets to San Francisco theaters or to the Royal Theater in this city during the last two weeks by renewing their subscription to The Enterprise or by bringing in new subscriptions to this newspaper. The San Francisco theaters included in this generous offer include some of the best-known playhouses in the city. It makes no difference where you may live, the tickets are yours for the asking and each will admit two persons to the theater selected. If you can't come in personally, mail in your check or a money order and the tickets will be sent to you.

## Stories of Great Scouts

By Elmo  
Scott  
Watson

©, Western Newspaper Union.

### BELZY DODD, THE "MAN WHO SCALPS HIMSELF"

Some historians have asserted that Belzy Dodd was a myth, but some of the old scouts who knew him well do not agree with them. "Ask some of the Indians who raided along the old Santa Fe trail about 'The Man Who Scalps Himself,'" they said, with a laugh. Like California Joe, Dodd was a practical joker, and one of his jokes once defeated a band of Indians and saved a wagon train from the horrors of a massacre.

Dodd was guiding a caravan of traders to Santa Fe. At night they parked their wagons in a circle with the mules corralled inside to prevent their being stampeded if Indians attacked. Outside the circle guards were posted to give warning at the first appearance of a savage.

Just before daylight one morning the traders were awakened by a shot, and rushed out to find a guard lying wounded on the ground. In the next instant a band of Pawnees charged down on the train. A fierce battle followed. The Indians who attacked the train were re-enforced by a larger band and in a short time it became evident that the train, whose defenders were hopelessly outnumbered, was doomed. Suddenly Dodd, whose rifle had knocked down more than one painted warrior, threw aside his weapon and dashed outside the circle of wagons.

Howling fiendishly, he rushed into the midst of the charging Pawnees. Before the Indians could recover from their surprise at his bold act, Dodd whipped out his long knife, ran it around the edge of his hair, and with a wild yell, tore off his shock of black hair and waved it about his head.

It was too much for the Pawnees. With a howl of terror, they broke and ran. Dodd was a swift runner—he could hold his own in running beside a galloping buffalo, it is said—and he pursued the frightened redskins, shrieking and waving his "scalp" until they left him far behind. A wig had saved a wagon train!

After that time any wagon train which Belzy Dodd guided over the Santa Fe trail was safe if the Indians saw Dodd in the lead. They had no use for a man who could scalp himself and still live.

What became of Belzy Dodd and where he died is as much a mystery as his birth and early life. He played his little role as a comedian in the drama of the West, and then, like many greater actors, he passed on and was soon forgotten.

### Aging Rapidly.

Manager (to applicant for office boy vacancy)—Aren't you the boy who applied for this position a fortnight ago?

Boy—Yes, sir.

Manager—And didn't I say I wanted an older boy?

Boy—Yes, sir. That's why I'm here now.—London Evening News.

### INCOME TAX FACTS.

Changes in the revenue law are of material benefit to the average family man. Under the revenue act of 1921 a married person, living with wife or husband, whose net income for 1921 was \$5000 or less, is allowed a personal exemption of \$2500. Under the revenue act of 1918 the exemption allowed a married person was \$2000, regardless of the amount of net income.

The normal tax rate is the same, 4 per cent on the first \$4000 of net income above the exemptions, and 8 per cent on the remaining net income. Given his personal exemption of \$2500, plus \$400 for each dependent, a married man with three children—the average American family—will pay this year on a net income of \$44000 a tax of \$12. On the same income for 1921 he would have paid a tax of \$56.

Every citizen and resident of the United States must determine for himself whether his income for 1921 was sufficient to require that a return be filed. Full instructions for making out a return are contained on the forms, a copy of which will be sent to taxpayers who filed a return last year. Failure to receive a return, however, does not relieve a taxpayer of his obligation to file a return on time, on or before March 15, 1922. Forms may be obtained from collectors of internal revenue and branch offices.

**APPEARANCE OF HIGH SCHOOL.**

A yard of weeds and papers scattered around. Does that sound much like a description of the grounds of a high school? Certainly not. Yet that is how our high school grounds appear.

We have a beautiful building, but its appearance is spoiled because it lacks good looking and well-kept grounds. A school is judged a great deal by its grounds as well as by its faculty and building.

If a lawn was planted it would be greatly appreciated by the students and would certainly add to the appearance of the school.

It is time that something be done to improve the appearance of the high school.

**SCIENCE CLUB.**

A meeting of the Science Club was held last Tuesday in the science lecture room. It was the first meeting of the year and very interesting.

A committee of three was appointed to construct a showcase for some of the specimens which the members of the club and high school students have collected. The committee appointed was Mr. Holt (chairman), Elmer Vaccari, and Milan Conrad. It was decided that the Science

Club would set up a wireless for the use of the school.

There being no other business, the meeting adjourned.

**SOUTH CITY VS. CAMPBELL.**

Another victory was added to the honor of the 130-pound boys' team when they defeated Campbell Friday afternoon on the local court. Our boys outclassed the visiting team in every department. Charles Dunlap and Thomas Doak showed up in their guarding, making it very hard for the Campbell forwards.

The team will play Redwood City next Friday. This will be one of their toughest battles. However, our boys are going down to play the game with their old fighting spirit and have great hopes of winning.

**STUDENT BODY MEETING.**

The regular monthly meeting of the student body was called to order by President McMills Monday morning.

The subject of the appearance of the high school grounds was brought up and discussed. It was considered necessary to have a committee of ten appointed to see that the ground are kept free from papers. There being no other business, the meeting adjourned.

**INDUSTRIAL NEWS FROM

### THE TRUTH ABOUT TAXATION

The movement is on for reduced taxation right down the line, from national government to school district.

In commenting on the fight of industries in the state of Washington to secure a general tax reduction, a deputy assessor thoroughly familiar with the situation and who is in accord with the idea of reducing government expense, says:

"In our county it is not taxation any more but is getting to be confiscation, but what is a poor assessor going to do when we elect a legislature who think it is their bounden duty to get an appropriation for their district in order to get back in office, and each state institution sends its lobby to the legislature to obtain all they can for their pet institution. When the legislature gets through passing the pie around, then the state officers have to make the levy to meet it, and so on down to county affairs. Each district will vote bonds for some needed or imaginary project, then when tax-paying time comes they blame the assessor for high taxes, when, as a matter of fact, it is the voters themselves who are to blame. If they will elect a legislature giving them to understand that if they want to go back again to put a soft pedal on all appropriations such as school and roads until we get caught up (and not try to outdo the older states), then taxes will be reduced.

"We are busting the taxpayers by trying to make a playground of the West for the rest of the country to come and have a good time in the summer. The same thing prevails in the county, every one urges roads to their particular place, and the consequence is that the commission has to levy all the law will let them in order to get back in again. The same with schools—each district wants to have a better school than its neighbors and go the limit. I know of one timber district that has the nicest school building and best equipped of any school in the towns, in fact, they have everything that money will buy—they have less than thirty pupils, with three teachers, the principal getting \$190 a month. Their valuation for this year is \$1,182,569, with a school levy of 14.5 mills, and not a farmer has enough personal property to be on the tax roll, while the school here, which built a new \$40,000 school house this year and maintains thirteen teachers, has only an 18-mill levy on a valuation of \$854,487."

This plain statement of facts applies with equal force to practically every Western state. It is up to the people to say whether they will have tax reduction or further tax expansion.—Industrial Bureau.

### RUINING THE PUBLIC HIGHWAYS

A trip over the improved highways is all that is necessary for any one in order to appraise the damage that is being done by the operation of heavy auto trucks and buses.

If these vehicles are not regulated as to kind of tires and weight of load, it is only a year or so until the roads will be ruined and taxpayers confronted with heavy bills for repairs.

Nothing will more quickly damage an improved highway than the operation over it of a heavy truck, and the faster it moves the more damage it does. For which reason passenger stages or buses moved at high speed are almost as destructive as slow-moving freight trucks.

Public highways have been improved at large public expense. The government has borne part of the cost of construction, but it bears none of the cost of repairs and upkeep.

Some of the roads constructed a couple of years ago are now breaking down from fast bus driving and heavy truck loads. If this is kept up, our supposedly improved highways will be worse than before improvement and cost of repairs will bear heavily on the already bent shoulders of the taxpayer.

The situation has become serious and county boards or other public authorities should take immediate action not only to regulate the speed of passenger stages but the load of auto trucks, as well as impose a toll, license or tax for the privilege of using improved public highways sufficient at least to balance the amount of damage being done.—Industrial Bureau.

We are glad to see so many politicians hanging on to the fringe of that Washington conference. They may learn how to say much in a few words.

One of the most embarrassing moments in a man's life is when he tries to make a fool of another and finds that he himself is a bigger one.

When the young man's fancy lightly turns to love she quickly brings it back to earth again by exposing the lightness of his pocketbook.

We insist that the possession of an automobile is an aid to Christianity. It removes the excuse for cursing others who have them.

No, you can't escape 'em. The summer siren simply transforms herself into the winter vamp and keeps on a-go-in'.

"Keep your smile," is the advice handed out by a local philosopher. But handing it out to others would be better.

It isn't to be wondered at that some men are unable to withstand prosperity. They never have a chance.

Poor relations, however, are not always poor to those who have less.

### AT ROYAL THEATRE SOUTH SAN FRANCISCO

Program for Week Beginning Sunday, February 12th:

Sunday—Mary Miles Minter in "The Little Clown," comedy and Mutt and Jeff cartoon.

Monday—All-star cast in "Down Home," "Hurricane Hutch," No. 12.

Tuesday—Betty Compton in "The Little Minister," Jimmy Aubrey in "The Backyard" and International News.

Wednesday—Betty Compton in "The Little Minister," Jimmy Aubrey in "The Backyard" and International News.

Thursday—Buck Jones in "Bar Nothing" and Sunshine comedy.

Friday—Cosmos production, "What Every Woman Knows," Eddie Polo in "The Secret Four," No. 7.

Saturday—Mabel Ballin in "East Lynne," selected comedy and Bray comic.

### A Second Chance.

"Do I understand you to say that you will sell this seven hundred dollar dining room set on the installment plan for only five dollars down and three dollars a week?"

"That's the offer."

"Why, man, by the time it was paid for it would be old and worn out."

"Yes, I know. But then you could sell it for a genuine antique."

Judge.

## COLMA

## San Bruno

Angelo Moresco of Dunk street, who has not been well for some days, is rapidly regaining his health.

During last week Mrs. A. Insund of San Francisco spent a pleasant day visiting old acquaintances here.

The Misses Lena Camanzind and Marie Anderreggen are taking violin lessons at San Mateo high school.

Mrs. A. Riddell is well again, after having been laid up several days during the past week with a sore throat.

Nino Castagnoli's store is being painted green, which will brighten and add to the appearance of that block.

Miss Emelia Wilke is about again. Miss Wilke resumed her studies at the San Mateo high school during the week.

Our popular druggist, W. J. Mowry, is feeling very much better after his illness of last week, which kept him indoors.

Miss Marie Rudolphus attended the social affair given at the St. Charles Hotel in San Francisco Saturday evening.

Barbara and Mrs. C. Stewart of San Francisco were visiting with Mrs. J. Henderson during the latter part of last week.

Mrs. E. R. May was the winner of the second prize at the card party given in Ocean View on Wednesday night of last week.

After joining friends in San Francisco Miss Katheline Hurst attended a luncheon given at the Firefly Club last Saturday afternoon.

During the early part of this week Mrs. Angelo Stampanoni of San Pedro avenue donated forty-nine Leslie magazines to the C. C. library.

The sixth grade teacher of the Jefferson school, Miss Jennings of San Jose, has been on the sick list and unable to attend to her duties.

Miss Katheline Hurst resumed her studies at the High School of Commerce in San Francisco during last week after an illness of several days.

The Jost family of School street and the Anderreggen family of Augusta street were visitors at the Camanzind home on Bryant street Sunday evening.

At the firemen's whist party given in Daly City last Tuesday evening, Miss Theresa Stampanoni was one of the lucky winners, capturing first prize.

James D. Murray, proprietor of the Nine-Mile House, is the proud possessor of a brand-new Dodge coupe, purchased in San Francisco during the week previous.

Mr. and Mrs. C. Anderreggen and family had as their guests during the latter part of the week Mr. and Mrs. William Yahn and Mr. and Mrs. Webb of San Francisco.

Miss Marie Tomarchiwich of Mountain View bade good-bye to many of her friends here on Friday last. Miss Tomarchiwich will spend several months with relatives at La Honda.

The Beaver Club of Daly City will hold its whist party next Tuesday night, February 14th, at Bracken's Hall. This is to correct the mistake made in last week's issue, stating that the party was to be on Tuesday evening of this week.

Next Saturday evening will be the

big night, when El Carmelo Parlo No. 181, N. D. G. W., of Colma will give its big dance at the Daly City auditorium. Excellent music with a good time is assured all.

Mr. and Mrs. W. Yahn and Mr. and Mrs. T. Webb of San Francisco were accompanied by Miss Marie Anderreggen to the big masquerade ball given by the Order of Herman's Sons of San Francisco last Saturday evening.

After receiving a deep cut on his hand during the middle of the week, Peter Benassini received first aid by W. J. Mowry. Mr. Benassini is under the care of a physician, and is recovering as well as can be expected.

On Sunday Mrs. C. Dalve of San Mateo and children, Miss Sophie and Henry, Mr. and Mrs. Henry Volkman and son of San Francisco spent an enjoyable day visiting with Mr. and Mrs. F. Volkman and family. Taking advantage of the nice weather, they motored out to the park during the afternoon.

Mr. and Mrs. M. M. Jensen's youngest son, Robert, is receiving the congratulations of his numerous friends upon graduating from the San Mateo union high school on Friday evening, January 27th. Many of the high school students from this community attended the big doings during the evening given in honor of the graduates.

**Artists in Jap Cabinet.**  
Japanese cabinet members are artists and their paintings and writings brought good prices at a recent auction by the Tokyo Fine Arts Club. The late Premier Hara painted three pictures which sold for \$700, and another group of four brought approximately \$800. Writings of Prince Saloni brought \$200. Mr. Noda, minister of communications, painted a chrysanthemum and an orchid, while Mr. Tokonami, the home minister wrote a poem.—Dearborn Independent.

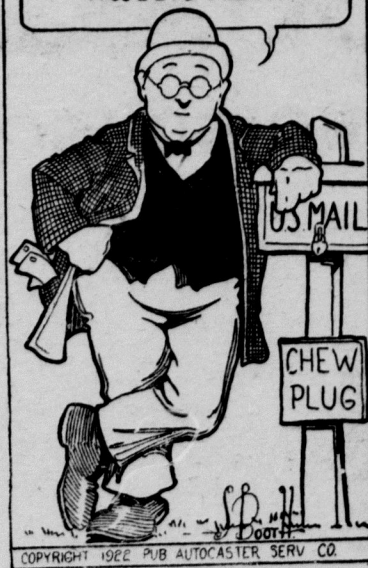

**She Got Them.**  
Patience—Wonder if Peggy is out yet?  
Patrice—Why, yes! Has she been sick?  
Patience—No, but she said she couldn't go out until she got her new shoes.  
Patrice—Well, I saw her limp by today.

**Had Figured It Out.**  
The Lawyer—You're asking pretty stiff alimony merely because your husband neglected you for his business. Think he can dig it up?  
The Client—Of course he can. By attending to business he's made money and by neglecting me he's saved it.

About the only persons outside your family that are deeply interested in your work, are your creditors.

## Uncle John's Josh

YOU KAIN'T ROUGE A WOMAN'S HEART.

## SHOWS ONE'S LOVE CAPACITY

"Telegraphone" May Be Used in the Future to Prevent Possibility of Unhappy Marriage.

One of the innumerable uses to which the "telegraphone," an invention announced by the Society of Electrical Development, may be placed is that of preventing unhappy marriages. The inventor himself, name not disclosed, believes that if it can be adjusted over the heart of the girl, her doubt-torn swain will be able to tell whether she is telling the truth or not. He had not invented a way of making the girl put this lie detector on.

The "telegraphone" records the breathing and heart beats. It magnifies irregularities caused by emotions and is regarded by criminologists as a sure method of catching lying witnesses. The lover suggestion is forwarded by the inventor merely as an example of what science could do if permitted.

"When John grows doubtful of the reality of Joan's love for him," he says in his dry, academic way, "he can satisfy himself by having her heart flutters measured."

If the girl puts up a struggle at a suggestion that she wear this harness during an evening of courtship John may be sure that he is going to get several hours of lies. In that case there is nothing to do but doubt everything she says. Thus will unhappy marriages be prevented.

## REMINDER OF MIDDLE AGES

English Clergyman Likely Will Have to Stand Trial on the Charge of Heresy.

Charges of heresy—with the possibility that England will have an ecclesiastical trial such as it has not known since the Middle Ages—have been filed against the Rev. H. D. A. Major, principal of Ripon hall, a theological institute in Oxford, by the Rev. C. E. Douglas. Further action rests with the bishop of Oxford, with whom the charges have been placed.

The action grew out of an article by the Rev. Mr. Major, in which he said that the resurrection of Christ was a spiritual but not a physical happening. The Rev. Mr. Douglas charges him with "publishing doctrine contrary to the teachings of creeds and of holy scripture," and also "of importing into the Christian religion the teachings of the eastern mystic, Buddha."

**He Was the "Goat."**  
One day last spring I attended a circus, and while looking for my seat prior to the start of the show, I chanced to walk through the arena. A young "blonde" lady came to me and asked me where the animals were on exhibition. As I pointed the correct directions she fell in a faint, right into my arms. I was badly confused and started to carry her to one of the platforms in the center of the immense coliseum. Then I heard roars of loud laughter. I dropped her and started to fan her with my hat, when, with all eyes on me, I realized that the young "lady" was a clown who had been amusing the audience before the start of the regular show and I was the "goat."—Exchange.

**Horseshoe From the Prince.**  
Before embarking for India the prince of Wales visited the castle of Oakhall in Rutland, says an English exchange.

And following an old tradition he had to pay the title.  
This tradition, over 300 years old, is one of the most curious. It imposes upon the visitor of note—for whom alone the gates are opened—the obligation to offer a horseshoe.

The prince of Wales did not ignore this custom. His horseshoe was placed above the first that figured in the collection, and which was received from the hands of Queen Elizabeth.

## COAST ROAD TO GET \$50,000 OF COUNTY FUNDS

(Continued from page 1)

Werder asked the board for instructions as to the purchasing of automobile tires for the automobile used by the county meat inspector, and on motion of Supervisor Brown, seconded by Supervisor Hickey, was instructed to purchase the tires needed, Supervisor MacBain voting no.

Supervisor Brown of the second township brought up the matter of the eastside highway, and County Surveyor George A. Kneese informed the board that the maps and data are ready, and that he is now awaiting word from the Southern Pacific Company as to the moving of its tracks.

## LOCALS

Mrs. F. Holmes Smith has been confined to her bed during the past week, as well as her little son, Harry.

The Brotherhood of American Yeomen will give an anniversary dance at Bellevue Tavern Saturday evening, February 25th.

The Y. M. I. have sent a basketball challenge to the Yeomen, which the latter have accepted. The match will be played on the sports grounds adjoining the California restaurant.

Frank Steward intends shortly to start active building operations on his property on San Mateo avenue, opposite the Jenevein property. This, in addition to the erection of a private residence for himself, includes the building of two stores.

On the occasion of the Yeomen whist party to be given on the last Tuesday of this month, the affair will be in the interest of the basketball team, which stands in need of some new equipment. It has therefore been decided that the proceeds on the evening in question will be turned over to them for the purpose stated.

On Saturday, February 18th, the administrators of the estate of the late Andrew Buerk will sell at private sale to the highest bidder the house standing on lots 22, 23 and 24, block 10, San Bruno Park. At the same time lot 20, block 1, San Bruno Park, will be sold.

Saturday night at Carpenter's Hall the Ladies' Aid Society of St. John's Church will give a "Pep Party." A varied program has been drawn up for this occasion, which will hold many pleasing surprises. Les Empey has kindly consented to give his famous "Shadowgraph" show which delighted everybody who saw it at the Christmas party to the Yeomen children.

## I TRUSTEES DELLA CITTA' UNITI IN SESSIONE REGOLARE

Il Trustee L. G. Hardy presiede alla riunione di Lunedì sera causa l'assenza di G. W. Holston.

Una richiesta firmata da un grande numero di proprietari, protestante contro il seclerare di chiosetti in diversi blocchi fu rimandata fino a Martedì sera per essere considerata. Fu ricevuta una lettera dalla Legione Americana statando che questa cercava dei fondi per comprare una bandiera ed i trustees passarono a questa \$25.

Fu rilasciato il permesso di un ballo al fire department per l'11 Febbraio ed al Fraternal Hall Associazione per Febbraio 21.

## DUE LADROCI IN UNA SETTIMANA

Le case di John Mager in Miller avenue e Paul Blank in Commercial avenue furono visitate da ladri i quali asportarono in tutti e due i casi utensili di casa.

Nessuna traccia dei ladri si è potuta scoprire.

## UNA GRANDE RIUNIONE DI RECLAME PREPARATE PER GIOVEDI' AL CITY HALL

Una pubblica riunione per considerare se circa 40,000 acre di terreno in questa contea saranno reclamati; sarà tenuta al city hall di South San Francisco Giovedì sera della prossima settimana.

Il piano stabilisce l'escavazione di un canale nella baia e riempire il terreno basso costeggiante la suddetta da Hunter's Point fino ad un punto sotto a Redwood City.

Diversi supervisors ed oratori da San Francisco e città della penisola saranno presenti per spiegare tutta la schema, ed il pubblico è invitato di attendere alla riunione.

## I SUPERVISORS SI APPROPRIANO DI \$50,000 PER LA VIA COSTALE

Alla loro riunione di Lunedì scorso i supervisors si appropriarono di \$50,000 del fondo generale per la riparazione del quinto distretto stradale cioè da Pescadero al limite contale di Santa Cruz.

Dietro una presentata richiesta per la formazione di un distretto sanitario al sud di Redwood City, Menlo Park e Halfmoon Bay il concilio passo a risoluzione la quale provveda ciascuno

## CIVIC LEAGUE MOVES TOWARD SELECTING CITY TRUSTEES

An important and largely attended meeting of the San Bruno Civic League was held Monday evening at the lower California Hall with Mr. Ford, its president, in the chair.

Plans were partially perfected for the purpose of the league definitely accepting three candidates to be voted upon for trustee at the coming April election. It is recognized as important at this time that the two hold-over members of the board, J. T. O'Connor and A. S. W. Grundy, should have as colleagues men who will work wholeheartedly with them toward forwarding the best interests of San Bruno. Dr. F. Holmes Smith the league has definitely decided to back, the other two candidates will be decided upon later. A committee from two of each of the various subdivisions in San Bruno was partially formed, the remaining members to be appointed at the next meeting. It will be their duty to present to the league a list of citizens who desire to enter the political ring.

After the league had adjourned, all present were invited to partake of a fine supper set out at a long table spread with spotless white. The ladies to whom the league were indebted for this kindly and thoughtful idea were Mrs. Harry Grady, Mrs. Hawkins, Mrs. Flynn, Mrs. Helmore, Mrs. Fegan, Mrs. George Clark, Mrs. Laumeister, and Mrs. Bergman. The league has, at the present time, about 100 names on its roll. Among its members are men affiliated with all political parties.

## ST. JOHN'S CHURCH DEDICATED WITH IMPRESSIVE CEREMONY

Last Sunday afternoon the corner stone of the new St. John's Evangelical Church was laid with impressive and dignified ceremony. There were present about 200 persons. The service commenced by the singing of hymns. An address by the Rev. Mr.

Meyer, one of the early pastors of the church, was listened to with keen interest by all. The Rev. Mr. Saenger, present pastor, had the service in charge, while his talented wife presided at the harmonium which had been requisitioned for the purpose. Dr. Filben of the Methodist church made of the closing prayer. On the termination of the service the ladies of St. John's Aid Society served hot coffee and cake.

## EPWORTH LEAGUE CHAPTER TO HOLD SOCIAL FEB. 24

All young folks of Epworth League age are invited to attend the next social to be given by the Epworth League Chapter of the Community Church on Friday evening, February 24th. This social is to be in the nature of a St. Valentine's observation, with a postoffice for those who wish to remember their friends. The postmistress will have a small supply of valentines for those who wish to purchase at the last moment.

A short program and games will furnish the entertainment for the evening. The young men will have to speak up for their supper partners, which event will, no doubt, create quite a bit of excitement.

A great deal of money makes fools of most people, but a very little money can have the same effect, and you can be a fool without a cent in your pocket if you have a talent that way.

## For Real Estate

I have a number of Modern Houses for sale on terms to suit. Also vacant property.

## MILLBRAE AND LOMITA PARK

Saturday Mrs. Cove entertained at a theater party Miss Smith, Miss Lewis and Grace Cove.

Mr. and Mrs. Robert Hunter motored down the peninsula Sunday with friends from San Francisco.

Lawrence Newman, who is in the University Hospital on account of nervous breakdown, is improving.

On January 28th Mrs. Sawin entertained at a theater party a number of the students of Miss Hamlin's school.

The Junior Whist Club was entertained by Billy Eddy Friday evening. The prizes were won by Alice and Helen Laumeister.

Mrs. Damon, a former resident of Lomita Park, will return next week to occupy her home, made vacant by the departure of Dr. and Mrs. Collings.

A number of parents took their children to San Mateo to hear the lecture of "Cho Cho." It was very entertaining.

Mabel and Willie Lockhart of San Francisco spent the week-end with the Eddy family. Mr. and Mrs. Lockhart accompanied their children home.

Through the efforts of the Development Association, northbound Southern Pacific train No. 37 will stop on flag at Lomita Park Sundays and holidays, beginning February 12th.

The Ladies' Aid gave a surprise social, inviting all those who were not affiliated with any other church. The entertainment consisted in "Surprise" numbers arranged by the committee.

Last Sunday an able sermon was delivered by Dr. Filben on the "Arms

del suddetta distretti di votare per la formazione di detti distretti. Il perito della contea George Kneese rapporto' al concilio the mappe e data per la costruzione della strada della parte dell'est sono ora pronte per essere approvate.

One secret of a long life is to forget injuries and remember favors.

Conference." It is a great privilege to listen to one so highly educated and so thoroughly conversant with his subject.

Next Friday at the school house Founders' Day will be celebrated by the Parent-Teachers' Association. Roy Cloud will deliver the address on "Abraham Lincoln." Refreshments will be served.

Mr. Monroe was delighted with his first trip through the air last Sunday on the Marina field. He was accompanied by his sister-in-law, Mrs. Field. Mrs. Monroe and Mr. Field felt safer on the ground.

The corner stone of St. John's Evangelical Church was laid with impressive ceremonies. The pastor was assisted by Rev. Dr. Filben of the Community Methodist Church. After the services refreshments were served by the ladies of the church.

Lillian Sawin was given an enjoyable surprise party on her birthday, January 25th, by the students of Miss Hamlin's boarding school. The afternoon was spent playing games on the roof garden. Miss Sawin was the recipient of many beautiful gifts.

Miss Smith motored through the Santa Cruz mountains Friday with Mrs. Cove, Mrs. Anderson, Miss Lewis and Grace Cove. They enjoyed the novelty and beauty of the snow. On the way home they stopped to visit Frank Anderson at Los Gatos.

Saturday evening, February 4th, Mr. and Mrs. Joe Adams celebrated their twentieth wedding anniversary. Many beautiful gifts were received. The evening was spent in playing cards. The prizes were won by Mrs. Canning, Mrs. Hunter, Mr. Cove and Mr. Baumgartner.

## Reckoning the Cost.

The bridegroom stood moodily surveying the great array of wedding presents.

"What's the matter, dearie?" asked the bride. "Aren't you satisfied with the presents we received?"

"Oh, yes," he answered, "but I was just thinking what a pile of money it is going to take to pay them back."

## Woman's World

### WISE CHOICE, CAREFUL USE WITH KITCHEN UTENSILS

There are several important points to consider in selecting kitchen utensils. Is the utensil easy to handle? This depends on weight, balance, the position of the lip, and the shape and material of the handle. Lips on both sides are convenient; if there is only one, it should be on the side that will be tilted down most frequently.

Will the utensil be durable and easy to clean? Well-made utensils that are smooth inside and out, with rounded surfaces, and with no grooves or cracks in which food can lodge, give the best surface. Elaborate utensils that are difficult to clean often waste rather than save time and labor.

Is the utensil the right size and shape? Small quantities of food can be cooked best and most economically in small utensils. For use on the gas or oil stove, the saucepan or the double boiler with uaring bottom that extends beyond the flame will save fuel.

Can the utensil be used for more than one purpose? This is especially important if storage space is limited.

**Use of Standard Materials**  
Aluminum is light in weight and color, is an excellent conductor of heat, does not rust, and is very durable. When darkened with use it can be brightened by a weak vinegar solution, sour milk, sour fruit juice, or by scouring with fine steel wool or whiting. All traces of the vinegar and other acid should be thoroughly washed off. Strong soaps or washing powders containing alkalis discolor aluminum and should never be used on it.

Earthenware and stoneware heat evenly, are less noisy in use than metals, and are excellent for mixing bowls and baking dishes. Both these materials are heavy to handle and chip and crack if carelessly used. They should be cleaned in hot, soapy water, or, if necessary, soaked in a solution of washing soda. Scraping or scouring spoils the glaze and exposes the porous clay underneath, which quickly absorbs grease, moisture, and dirt. Chipped earthenware and stoneware dishes are not sanitary.

Enamel and agateware are smooth, easily cleaned, attractive in appearance, and are not affected by mild acids or alkalis. They must, however, be handled gently; otherwise the glaze chips, exposing an iron or steel

surface that may be affected by water and acids and thus injure food. Also, the chips themselves may get into food and be swallowed with it. New pieces should be toughened by filling with cold water, bringing slowly to the boiling point and letting the water cool in the utensil. It should be cleaned like earthenware, nor scoured nor scratched.

Glassware is smooth, not affected by foods, and because it is transparent, excellent for vessels in which to store food. Special kinds are also good for cooking utensils. Glass must be carefully handled, for it is easily broken and chipped. Ordinary glassware will be toughened if covered with cold water, brought slowly to the boiling point, and cooled in the same water.

#### Grow Better With Use.

Iron and steel utensils grow better and smoother with careful use. They take and keep an even heat. The cast-iron bake kettle, or Dutch oven, with tight-fitting lid, is for this reason especially good for pot roasts and other dishes that require long, slow cooking. Iron and steel utensils, however, rust easily and are heavy, difficult to keep clean, and not economical of fuel on the modern gas range. To prevent rust, fat should be rubbed on and baked into these utensils when new, and they should be kept at all times in a dry place. Rust may be scoured off with bath brick or steel wool; kerosene will also help if the utensil is very rusty.

Tin is light in color, fairly inexpensive, and is not affected by weak acids or alkalis unless the plating is injured. On the other hand, it melts easily; if scratched, the surface underneath rusts; and such acid foods as cranberries and tomatoes should not be cooked in it. There are two kinds of tinware, plain and block. In both there is a plating of tin on an iron or steel foundation.

Plain tin is light in weight, easily bent, and cools quickly. Block tin is heavier, more durable, and holds the heat longer. Tin cooking utensils perhaps cost less than any other kind, but are not economical unless given very good care. They should be washed in hot, soapy water, or if necessary soaked in a weak solution of washing soda, rinsed and dried thoroughly. The finish on tin protects it, and should not be scoured off simply to make the utensil bright.

There are men and women whose very presence constitutes a disturbance of the peace.

### AGE AND THE MODERN YOUTH.

Attitude of the Youngsters Is by No Means Necessarily a Mark of Disrespect.

When we find the children slipping away, excluding us from their pleasures, it's time to let them understand that we're far from being ready for the scrap heap.

The fact that children don't run to bring father's slippers as they used to, doesn't mean any lack of consideration for the parent who has worked hard all day to support his family. I prefer to think the passing of this custom indicates a hope in the young mind that father hasn't yet reached the slipped age, but still has a stomach not wholly satisfied with warmed-over cabbage.

Slippers are the symbol, the outward and visible sign of approaching senility. Father would be a lot better off if he forsook the old armchair and took the family to a vaudeville show or a movie. When my fifteen-year-old son looks in on me when I'm shaving and asks, cheerfully, "How's the hero feeling this morning?" I am flattered. He doesn't mean to be impudent; he is merely greeting me as though I were a comrade of his own age.

I should certainly forfeit his confidence in my sense of humor if I put down the razor to tell him that in my youth children showed their parents more respect. I tried that for a year or two and it didn't work. My past is nothing to him; he finds the world as it is sufficient for all purposes, and if he can have the car this afternoon he'll be very much obliged!—Meredith Nicholson in Harper's Magazine.

### OLD CITY ON TEMPLE SITE

American Archeologists Have Convinced Themselves of Facts Concerning Ancient Sardis.

Doctor Hogarth, keeper of the Ashmolean museum in Oxford, recently gave a series of lectures on the excavations conducted by American archeologists at Sardis. About fifty Latin inscriptions were discovered in the temple ruins by the Americans. Most of the inscriptions were found, however, on the lower slopes of the mountain at the rear of the temple.

The object of the undertaking was to settle the question as to whether the temple columns stood on the site of the ancient Sardis or whether it had disappeared with the collapse of the acropolis. The archeologists satisfied themselves that the ancient town did stand on the temple site. The theory is that the temple was built originally in the Fourth century; indeed, one of the inscriptions discovered dates back to the time of An-

tagonous, or about 300 B. C. Traces have also been found of an earlier sandstone temple under the other fragments. Originally the temple had eight columns in each of the two facades; not many architects today would design a building to support such great weight on such supports.

The work of excavation was greatly facilitated by the importation of a whole railroad from the United States.

### 322,000 Grains From One.

An experiment to show the fecundity of a grain of wheat has just been concluded at the official school of agriculture, Valladolid, Spain, with the result that one grain produced in a year 322,000 grains.

At the end of July 100 grains were sown separately. At the end of September the grains had developed an average of 12 shoots each. These were cut and transplanted and by the end of October each cutting furnished an average of eight shoots, which produced 65 ears each, and each ear gave an average of 50 grains. A simple multiplication sum shows that each of the original grains planted reproduced itself 12x8x65x50, making a total of 322,000 grains.

### Stars in Daylight.

It has been recently found that photographs of stars down to the sixth magnitude (degree of brightness) can be taken in broad daylight, so that astronomical photography need no longer be confined to the night. The discovery follows Lord Rayleigh's finding that the color of the sky is caused by the diffusion of sunlight by the atmosphere, and that the quantity of light dispersed is different in the case of different colors.

If the stellar photographs are taken through a very deep red screen the stars appear with distinctness. Experiments on these novel lines are being carried out at several observatories.—Brooklyn Eagle.

### A Nature Lesson.

Marion is an observing child. Recently the family motored into the country and was caught in a rainstorm. While waiting for the rain to stop the family, safe in the sedan, was watching horses in a field nearby.

"Isn't it funny," Marion observed, "when it rains the animals always turn in the opposite direction." And friends of animals will agree that most of them, at least horses, do not face a storm, but turn in the opposite direction.

### Prevents Motor Skidding.

As an antisiskid arrangement, as shown in the Popular Mechanics Magazine, side wheels are placed on a motorcycle recently displayed at a Berlin auto show. Each side wheel is arranged at such an angle from the body as to prevent the machine from skidding or falling over when turning in either direction. These wheels also support the motorcycle when not in use.

A good many boys who have been advised by their elders to be quick, seem to think that means to be "fast."

## Tikes and Teeners Corner

Conducted by "Auntie Ruth"

Letters and compositions from the young folk will be gladly received for publication in this corner by Auntie Ruth. Write and tell your experiences in school, in your home or what you saw on the way to school. Also tell Auntie Ruth the kind of stories you like to read.

Address all communications thus: "Auntie Ruth, Community News, 224 Miramar Avenue, San Francisco, Calif."

### KITTIE WITCH STORIES.

(By Auntie Ruth.)  
Chapter 3.

#### Kittie Witch Repays Shep

Jeanie had just brought supper to the kennel. Now, Shep made it a point to be close to home at meal times, but that evening he had spied a tramp slouching along toward the house, so he had to stand guard.

When the evil-eyed man saw the ridge of hair standing straight up on the dog's spine and heard the low growl, he hurried past.

Meanwhile Kittie Witch ate her supper, stopping often to call Shep, for old Speckle was eyeing the plate and sneaking nearer.

"Oh, dear! what will I do? She'll gobble it all up if he doesn't hurry. Sptz! Sptz!" But that old hen only cackled and pounced upon the feast.

"Sptz!" and a spunky little paw boxed Speckle's ears. The next instant the kitten had to leap for her life. From the top of the kennel she glared down at that greedy hen peck-peck-peck Shep's supper. Suddenly down she plunged right on that broad, feathery back, fighting and yowling like a wild cat.

With a loud squawk Speckle jumped and ran, thinking it was Shep. The kitten hung on, making the feathers fly, until she heard a welcome "Woof! woof!" behind her. As Kittie Witch watched Shep eating his supper that she had saved for him, and saw his kind eyes beaming with pride of her and his tail wagging his thanks, she tidied her rumped fur with a moist, pink tongue and felt very brave and happy.

She hoped Mammy Chloe would see how loyal she could be to her friends, but listen! Had she seen?

"Heah! You rascally dawg," scolded an angry voice from the back porch. "Yo'all been pesticatorin' dat hen agin?? I'll larn yo'all to—" Whiz! came a stick of wood, slam! against the kennel. The frightened kitten popped inside, but when she saw Shep was standing his ground and growling, out she dashed again.

Mammy Chloe was stooping for another stick, when "Sptz" and a red scratch stung the black hand. With a howl of terror the woman shrank back

in terror, her face a sickly gray, wild eyes rolling. Kittie Witch spat again, one wee paw lifted ready for instant battle, back arched, tail lashing, eyes flaming. It was too much for any black woman. With a wild scramble she managed to roll into the kitchen and slam the door.

The kitten trotted back to Shep in triumph. "There, now! Maybe she'll let you alone," she said. "But why is she so afraid of me?"

"Aw, she thinks you're a Hoo-doo," grinned the dog.

"Hoo-doo! What's that?" asked the kitten.

"Oh, something that is supposed to bring bad luck. But don't you worry," comforted Shep. "There really isn't any such thing."

"Hm-m!" mused the kitten. "So that's why she always crosses her fingers and spits the other way, or turns and runs when she meets me."

"Yes, she's scared to have you cross her path. You'd better look out for her after this fracas," warned Shep.

Though the kitten had laughed, she was troubled. She loved everybody who gave her half a chance and she longed to be loved, even by Mammy Chloe.

"I must watch for a chance to do something nice for her, then maybe she'll change her mind about hoo-doo. And anyway, Jeanie loves me," was her last wakeful thought that night.

Several days later Kittie Witch saw something that made her forget everything else for a time.

### Plugging Out.

A Kentucky man seems to have found a relative of the city girl who thought it must be cold work harvesting the winter wheat.

The young woman of whom the Kentuckian tells is a native of Cincinnati, and was lately talking with him about tobacco and tobacco raising.

"I should like ever so much to see a tobacco field," she said, "especially when it is just plugging out."—Way-side Tales.

### Sounds Good.

The London Times digs up a bunch of "humor evasive" in answer to questionnaires, as, for instance: A person whose father had been hanged by the neck until useless answered the question:

"Is your father dead? If so, how did he die?"

"My father was taking the principal part in a public function, when the platform gave way."—Richmond Times-Dispatch.

### TUXEDOS AND SLIP-OVERS BASK IN FASHION'S SMILE

EVERY woman knows that somewhere is to be found a sweater that will do wonders for her in the matter of becomingness. When the time comes—as it does much more frequently than it used to—to go out in pursuit of one, the excursion is likely to be exhilarating; it is like the quest of a new hat; for we know in advance that the right model awaits us somewhere.

There are so many versions of the sweater and so many variations of each version, that displays seem, at first glance, bewildering. In reality there are not, and do not need to be, many different styles; the variations lie in details of making and decoration. Wool, silk and fiber silk are used, alone or in combination, and in an endless manipulation of stitches, for knitting these garments that serve so many purposes.

The most popular and most practical sweaters are those made in the tuxedo and slip-over styles like those pictured here. The handsome tuxedo

model reveals a striped pattern in dark blue and, like nearly all silk sweaters, is closely woven. It has a checked pattern in white and blue as a border and a platted girdle with tasseled ends.

Fiber silk sweaters are usually developed in fancy weaves. Much use is made of drop-stitch stripes, cross-bar patterns and loose, open stitches in them. The story of fancy stitches has no end—it goes on forever.

A plain, substantial and neat slip-over of wool, shown in the picture, is closely woven and worn with detachable collar and cuffs. It fastens on the shoulder to avoid stretching the neck opening. But there are many slip-overs that fulfill the promise in their name, and they need no fastening. Almost all sweaters are provided with a girdle to match.

Julia Bottomley

## LOCAL HAPPENINGS

Mrs. J. C. McGovern is ill with a very bad cold.

G. W. Holston has been the victim of gripe this week.

Mrs. Lewis Adams has been confined to her bed the past week.

Henry Haaker was kept at home Wednesday by a touch of gripe.

A. J. Cadere spent Wednesday afternoon in bed with the gripe.

E. P. Kauffmann is around again, after spending a couple of days in bed with the gripe.

Miss Dorothy Butterworth of Palo Alto spent the week-end as the guest of Miss Ruth Snyder.

Mr. and Mrs. James Xeroyanes returned home Tuesday evening from their honeymoon trip to the south.

Mr. and Mrs. I. M. Dotson and Mr. and Mrs. H. P. Dotson motored Saturday to Santa Cruz, where they spent the week-end with relatives.

One of the power wires over hill 57 fell Wednesday morning and electrocuted a cow belonging to a rancher named Stevie, near the shipyard.

afternoon in bed with the gripe. guest at the home of Mr. and Mrs. Lewis Adams Saturday, and attended the dance given by the alumni of the South San Francisco high school.

Walter Lundberg and Miss Pauline George, both of San Francisco, were guests of Miss Bernice Holbrook Saturday and attended the alumni dance at the South San Francisco high school.

Mr. and Mrs. J. H. Holbrook and Miss Bernice Holbrook and Miss Pauline George of San Francisco, sister of Mrs. Holbrook, spent Sunday visiting friends at San Jose.

Mrs. E. P. Kauffmann and Mrs. E. C. Peck attended a "Literary Tea" given by the California Club Tuesday afternoon. The speaker of the occasion was Dr. Aurelia Rinehart, noted educator.

Houses for sale on easy terms, also to rent, fur and unfur. Lots for sale from \$300 up, only \$25 down and \$5 a month. Why not buy and build your own home? Telephone 129, San Bruno. L. M. Hawkins.—Adv. 4t

Floyd Johnson will step six rounds with Johnny Hogan at Tacoma tonight. This will be Johnson's third bout in the northwest, and if successful he may secure a return bout with Jack McAuliffe, to whom he lost a decision on points a few weeks ago.

Plenty of Time. "I trust, Mr. Borum," said Miss Cutting, as the young man was about to depart, "that you will spend one more afternoon with us before we move into our new house."

"Delighted, I assure you, Miss Cutting," replied Borum. "By the way, when do you expect to move?"

"I'm not positive as to the exact date," she answered, "but the workmen began excavating for the cellar yesterday, and papa expects the house to be finished in about eighteen months."—Edinburgh Scotsman.

### An Unusual Opportunity

worth your time and attention  
ENDORSED BY  
Bankers, Lawyers, Merchants, Doctors  
and many other such business men

Many times a busy business man misses a good  
opportunity because he feels that he has not time  
to investigate.  
THERE IS ALWAYS A BEST IN EVERYTHING  
We have reason to feel that we have the best op-  
portunity that has ever been offered to make big  
money in oil through the clearest plan of op-  
eration you have ever known. Here is what you now  
have the privilege to take advantage of:

OUR FIRST WELL IS FULLY FINANCED  
\$40,000 IS IN THE BANK  
Which is the contract price of this well to a depth  
of 3500 feet, with everything furnished. Not a  
dollar is paid out until the well is finished.

THE WELL IS NOW OVER 2000 FEET DEEP  
WE HAVE ALREADY STRUCK  
At 200 feet a 5-foot vein of coal.  
At 810 feet a 4-foot stratum of oil sand.  
At 730 feet a 10-foot stratum of oil sand.  
At 540 feet a 15-foot stratum of black lime.

ALL SATURATED WITH OIL  
We have also gone through Gumbo, Gray and Blue  
Shale, with good showings of oil all the way down.  
We are well along in the financing of the second  
well. We own 100 acres in free-room for 20 wells.

YOU GET AN INTEREST IN ALL OF THEM  
When the second well is fully financed or produc-  
tion is reached the sale will stop, which may occur  
at any time. While you are reading this I may be  
reading a wire from a field that will close the  
opportunity, so act at once. Don't delay.

THIS IS NOT A STOCK COMPANY  
You will get all that your money earns. Every  
one is on an equal basis. You are protected against  
any highbiceps juggling your money.
